

# MORE ABOUT KUA CAPITAL

Incorporated in Eswatini but with footprints in Africa and globally, at Kua Capital our core market approach is systemic with a business owner mindset with zero tolerance to stock price addiction. We value business according to their earnings, dividends, competitiveness(-moats) and their future value creation (either through expansion or innovation).

We believe in the concept of compounding wealth gradually through acquisition of high-quality low risk assets with a big margin of safety. We apply thoroughly tested principles using robust data driven quantitative

## PRINCIPLE & CULTURE

At Kua Capital we have two criteria that enable us to align our objectives with those of our client. A high-water mark provision, meaning we only charge fees after outperforming our highest historic returns performance. We also put emphasis on performance based compensation, meaning we only charge performance fees only when we deliver positive returns. With this we avoid conflict of interest. maintain respect and integ-

## MORE ABOUT OUR STRATEGISTS

### DISTRESSED VALUE ASSETS PORTFOLIO

We seek to find value in distressed value assets that have been ignored by the market.
